Creating Race/Ethnicity Variables in the National Youth Tobacco Survey 2009

Questions regarding race and ethnicity were asked differently in the 2004, 2006, and 2009 National Youth Tobacco Survey (NYTS), when compared to previous years' (1999, 2000, and 2002) surveys. This was to comply with the Office of Management and Budget (OMB) directive 15.*

In 2004, 2006, and 2009 NYTS, respondents were first asked about their Spanish or Hispanic origin:

2004:

Are you of Spanish or Hispanic origin? (QN4)

- a) Yes
- b) No

2006 and 2009:

Are you Hispanic or Latino? (QN4)

- a) Yes
- b) No

Respondents were then asked about race (QN5), which allowed respondents to provide multiple responses:

What race or races do you consider yourself to be? **(Please select 1 or more than one category.)** Would you say:

- a) American Indian or Alaska Native (QN5A)
- b) Asian (QN5B)
- c) Black or African American (QN5C)
- d) Native Hawaiian or Other Pacific Islander (QN5D)
- e) White (QN5E)

Two different definitions of race/ethnicity were created. The two definitions differ by how respondents who chose more than one race were categorized. RACE_M contains a separate category for respondents reporting more than one race. If more than one race is marked, respondents were grouped as "multiple race" (consistent with OMB 15 directive). RACE_S does not have a separate category for respondents who reported more than one race, meaning that respondents who mark more than one race are grouped into one of the six race/ethnic groups. RACE_M is the preferred way of defining race/ethnicity (as instructed by OMB 15 directive) but RACE_S was created to compare results from the 2009 NYTS with results from the 1999, 2000, and 2002 NYTS.

RACE_S is defined by first by looking at the Hispanic or Latino ethnicity question. If respondent answers "yes" to this question, then they are classified as Hispanic or Latino regardless of what their selection was for race question. If the respondent answered "no" to the Hispanic or Latino ethnicity question then to classify the individual into one of the races, their response regarding the race question is taken into

* OMB directive 15 states that two questions be used in collecting information on race and ethnicity, where ethnicity is collected first followed by race. OMB directive 15 can be accessed at <http://www.whitehouse.gov/omb/rewrite/fedreg/ombdir15.html>.

account. If the respondent selected only one of the races available then they are classified as that race. If the respondent selected two or more races then the following hierarchy was followed:
 If a respondent selected multiple races and they selected “White” as one of those races then they are categorized as “White.” If a respondent selected multiple races but did NOT select “White” and they selected “Black or African American” as one of those races then they are categorized as “Black or African American.” If a respondent selected multiple races but did NOT select “White” or “Black or African American” and they selected “Asian” as one of those races then they are categorized as “Asian.” If a respondent selected multiple races but did NOT select “White,” “Black or African American,” or “Asian,” and they selected “American Indian or Alaska Native” as one of those races then they are categorized as “American Indian or Alaska Native.” If a respondent selected “Native Hawaiian or Other Pacific Islander” and any other race category, the respondent would be categorized as that other race.

RACE_M is defined by first by looking at the Hispanic or Latino ethnicity question. If respondent answers “yes” to this question, then they are classified as Hispanic or Latino regardless of what their selection was for race question. If the respondent answered “no” to the Hispanic or Latino ethnicity question then to classify the individual into one of the races, their response regarding the race question is taken into account. If the respondent selected only one race then they are classified as that race. If the respondent selected two or more races then they are categorized as “Multiple Races.”
